Generally, it will take approximately 6 weeks to conduct the peer-review process. Please do not contact the journal editor to consult the process within this period, because it may increase the workload of the editor. However, if you do not receive the decision after 6 weeks, please add a discussion on this system, we will reply as soon as possible.

Note: You may view "A review is overdue" on the system, this means the response due date or review due date for reviewers had been passed, this is a reminder for reviewers, not for authors. We will push the reviewers to accelerate the review, please do not ask for clarification.
