Dear Pratya Nuankaew

Paper ID : 786

Title : Machine Learning-Based Clustering for Tuberculosis Patient Segmentation by Risk Factors and Symptom Profiles:
A Case Study of Ngao District, Lampang

Greetings!

We are pleased to inform you that the decision on your submitted paper has been released and communicated to the corresponding author.

Registration for accepted papers is now open and will remain available until 30 August 2025.

The organizing committee firmly believes that participation in conferences significantly enhances your research network. We encourage you to take this opportunity to register your paper and become a part of the prestigious ISBM 2025 Conference.

Please complete your registration through the following link:
<https://isbm.ict4sd.org//registration.php>

We look forward to your registration and active participation.

If you face any issues, feel free to contact us at: support@isbm.ict4sd.org
