Dear Dr. Pratya NUANKAEW,

Thank you for submitting your revised manuscript titled **"Multimodal AI Framework for Sign Language Recognition and Medical Informatics in Hearing-Impaired Patients"** to Journal of Applied Data Sciences (JADS). We appreciate the effort you have put into addressing the reviewers' comments and improving the quality of your work. We are pleased to inform you that we have received your revised submission, and based on our assessment, it appears that you have adequately addressed the reviewers' concerns and made the necessary revisions. Please accept our sincere appreciation for your contribution to the field of data sciences through your submission. We are pleased to inform you that your manuscript is **Accepted**. As a result, we will proceed with the editing stage. Your submission will enter the editing stage with some conditions that you must fulfill. Please make complete payment to:

Account Number: 0683280024
Account Name: Taqwa Hariguna
Bank Name: Bank Negara Indonesia (BNI)
Swift/swiftcode: BNINIDJAXXX
City: Purwokerto
Country: Indonesia

Notes:

- *We have attached the payment invoice for your reference and convenience*
- *Please make sure to include your paper code **#1096** in the payment statement.*
- *Once made payment please send your payment proof to **editor@bright-journal.org***

Please complete your payment before **7 November, 2025**.

We appreciate your patience and cooperation throughout the submission process. Should you have any questions or concerns, please do not hesitate to contact us. We look forward to working with you further on the publication of your research.

Sincerely,

Ibrahiem M. M. El Emary
Editor-in-Chief
Journal of Applied Data Sciences (JADS)

----------------------- - IMPORTANT - ---------------------------

----

------ - Content Writing - ------

Abstract: Please craft a concise abstract within a 250 to 300 word limit. Summarize the contributions, ideas, findings, or results of your paper and discuss their implications. Do not include abbreviations, footnotes, references, mathematical equations, diagrams, or tables. We suggest structuring your abstract as follows:

1. Clearly state the primary objective of your paper.
2. Highlight the virtues or contributions of your research.
3. Provide a conceptual description of your methodology.
4. Describe the research figure, tables and procedures employed, such as simulation, experimentation, or survey methods.

5. If the figure or table is in a non-English language, please provide a translated version of the table or a detailed explanation.
6. Present the main outcomes or results of your study, along with any relevant conclusions.
7. If applicable, discuss the implications of your findings for future research or practical applications.

Please note that this journal exclusively publishes high-quality papers. A high-quality paper should include the following elements:

1. A well-defined statement of the problem being addressed.
2. Proposed solution(s) to the problem.
3. Obtained results, accompanied by a clear description of any previous work on the topic and the novelty of your research.

Ensure that your discussion section is appropriate. In the "Results and Discussion" section, emphasize the most significant findings and provide a thorough analysis of the results.

The title of your paper should succinctly summarize the main ideas of your study. It should serve as a comprehensive and descriptive representation of your research. Use abbreviations and acronyms sparingly unless they are widely recognized.
