Dear Editor-in-Chief, Journal of Applied Data Sciences (JADS),

Regarding the bank transfer details you provided, the bank in Thailand is unable to process the international transfer. The bank requires additional information, including the full address and payment receiving location of the account holder. In addition, the bank has informed that the verification process may take more than one week, which would likely prevent the payment from being completed within the required deadline.

Therefore, the author respectfully requests an alternative payment method via PayPal, so that the payment can be completed promptly and within the specified timeframe.

If the journal is able to provide a PayPal account or payment instructions through PayPal, the author will proceed with the payment immediately and send the payment confirmation to the email address provided.

Thank you for your understanding and cooperation.

Sincerely,

Pratya Nuankaew, Ph.D.

Abstract: Please craft a concise abstract within a 250 to 300 word limit. Summarize the contributions, ideas, findings, or results of your paper and discuss their implications. Do not include abbreviations, footnotes, references, mathematical equations, diagrams, or tables. We suggest structuring your abstract as follows:

1. Clearly state the primary objective of your paper.
2. Highlight the virtues or contributions of your research.
3. Provide a conceptual description of your methodology.
4. Describe the research figure, tables and procedures employed, such as simulation, experimentation, or survey methods.
5. If the figure or table is in a non-English language, please provide a translated version of the table or a detailed explanation.
6. Present the main outcomes or results of your study, along with any relevant conclusions.
7. If applicable, discuss the implications of your findings for future research or practical applications.

Please note that this journal exclusively publishes high-quality papers. A high-quality paper should include the following elements:

1. A well-defined statement of the problem being addressed.
2. Proposed solution(s) to the problem.
3. Obtained results, accompanied by a clear description of any previous work on the topic and the novelty of your research.

Ensure that your discussion section is appropriate. In the "Results and Discussion" section, emphasize the most significant findings and provide a thorough analysis of the results.

The title of your paper should succinctly summarize the main ideas of your study. It should serve as a comprehensive and descriptive representation of your research. Use abbreviations and acronyms sparingly unless they are widely recognized.
